

The object of *DJ Wild*[®] Stud Poker is to get a higher five-card poker hand than the dealer. The game is played with five wild cards—the four deuces and one joker. *DJ Wild Stud Poker* also offers the optional Trips, Two Way Bad Beat Bonus and progressive wagers.

GETTING STARTED

You make equal bets on the Ante and Blind to play the game. You may also place bets on the Trips, Two Way Bad Beat Bonus and progressive wagers.

You will then get five cards and make a decision:

Fold or make a Play bet of 2x your Ante.

WINNING & LOSING

The dealer will then reveal their five cards and announce the hand. If the dealer beats your hand, your Ante, Play and Blind bets lose. If the dealer ties your hand, your Ante, Play and Blind bets push. If your hand wins, your Ante and Play bets pay 1 to 1 and your Blind pays according to the payable (see layout).

TRIPS BONUS

The Trips bet wins if you have three-of-a-kind or better. Natural hands pay more than ones that use wild cards. Not all hands with a deuce are considered "wild." If the deuce is not used as a wild card to make a winning Trips hand, it will be considered its natural rank. You may use the deuce as a wild card in the base game and use it as a natural for the Trips bet. See layout for odds.

TWO WAY BAD BEAT BONUS

The Two Way Bad Beat Bonus wins if you beat the dealer with a qualifying hand or the dealer beats you with a qualifying hand. See payouts for odds. Payouts are based on the qualifying hand that is beaten.

PROGRESSIVE

The progressive bet qualifies you for payouts from the progressive jackpot. Wild cards cannot be used for progressive payouts. In the event the player's hand contains a Joker, an additional card will be drawn to stand in its place for the purposes of resolving the progressive wager.

ENVY BONUS

The top hands trigger envy bonuses. See payable for payouts. You can win multiple envy bonuses in a round, but you cannot receive an envy bonus for your own hand or the dealer's hand.
